Use the "Log in" panel at top-right hand corner of page to access your website.

**SITE SETUP**

SITES MY STUDENTS DOMAINS ACCOUNT SUPPORT

My Sites **Add Site** On your dashboard, click on "Add Site"

*Choose a Theme*  
You can easily change this later

Scroll and choose a design that you like to begin your website. You can always come back and change to another theme.

**WEB ADDRESS**

Once you've chose a theme, you need to setup your website URL. Choose the first option unless you want to register for a new domain or own one.

Make sure to use something simple, short, and unique. No spaces. Weebly will let you know if the name you've chosen is available or taken, in which case, choose another one. ☺  
Click "Continue" when done.

**Use a Subdomain of Weebly.com** Available ✓  
A great way to get your website started  
http://  .weebly.com

**Register a New Domain**  
For a more professional online presence  
http://www.  .com

**Connect a Domain You Already Own**  
We'll help you connect your domain when you're ready to publish  
http://

**Continue**

**Plan my site** or **Build my site**

You can choose the option to plan your site. If not, click on "Build my site" to get started.

At some point, Weebly will ask you to categorize your site. For the purpose of this class, please choose "Education" and "Teacher".

**My Site**  
Type of website:  Category:

## BANNER

Hover near the title will give you options to edit text or to upload a pre-made logo.

Change default banner by hovering over the image and choose Page Layout or click "Edit Image"

Select the image for your banner from computer, a web address, or search Weebly image. Different effects can be applied to the image.

Text can also be put on top of the banner. Use the Add options at the top of the page.

Choose the option to save the new banner

On the "Pages" tab: Create/Delete page/blog, page title, reorder pages, and manage pages in navigation.

## PAGES

Change Site title, site address and other settings in this tab.

Drag page(s) underneath and to the right of a page to create submenus.

"Save Settings" when done.
